Model

Regional Economic Models, Inc. (REMI) was founded in 1980 on a transformative idea: *government decision-makers should test the economic effects of their policies before they're implemented.* We are the nation's leader in dynamic local, state and national policy modeling. Our clients use REMI models to perform rigorous economic analysis that critically influences local, state and national policies.

OUR CLIENTS:

Business Roundtable • Sandia National Laboratories • Ernst & Young • Texas Comptroller
University of Michigan • Tennessee Valley Authority • National Education Association
South Coast Air Quality Management District • Florida Legislature
North Carolina Department of Commerce • Wyoming Department of Administration & Information
California Environmental Protection Agency • U.S. Army Corps of Engineers

Kentucky State Economy

- KY **agriculture** is mainly corn, tobacco, soybeans, & livestock (cattle, poultry, but also horses & mules).
 - Most KY farms are independently or family owned.
- **Manufacturing** in the state includes bourbon, cars, coal, metals, & some oil refining.
- **Coal** is overwhelmingly the state's source of power.
- The **service sector** employs the most Kentuckians and drives economic output.
- Two **military bases** provide some economic activity.
