 - Long-term forecast
- Model demonstration

Model

Regional Economic Models, Inc. (REMI) was founded in 1980 on a transformative idea: *government decision-makers should test the economic effects of their policies before they're implemented.* We are the nation's leader in dynamic local, state and national policy modeling. Our clients use REMI models to perform rigorous economic analysis that critically influences local, state and national policies.

OUR CLIENTS:

Business Roundtable • Sandia National Laboratories • Ernst & Young • Texas Comptroller
University of Michigan • Tennessee Valley Authority • National Education Association
South Coast Air Quality Management District • Florida Legislature
North Carolina Department of Commerce • Wyoming Department of Administration & Information
California Environmental Protection Agency • U.S. Army Corps of Engineers

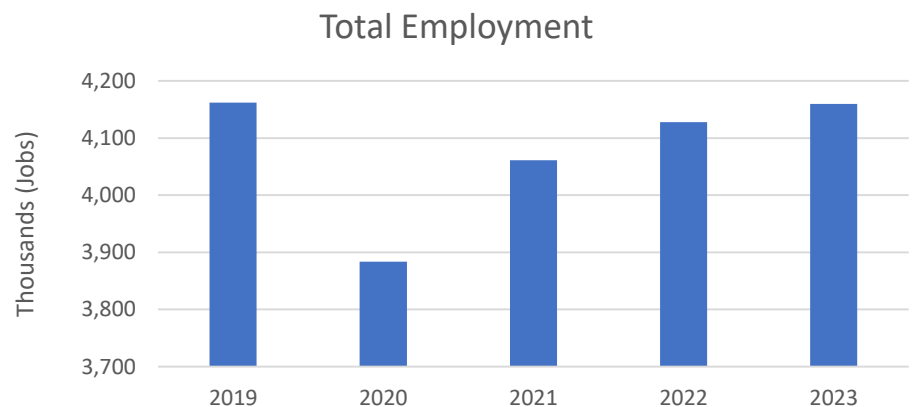

Tennessee State Economy

- Rooted in agriculture, the TN economy rapidly industrialized post-WWII. Built many **hydroelectric dams & power plants**. The state is webbed by **rivers & canals** that serve as shipping routes.
- TN is a top mining state for **zinc**, and also mines copper, silver, & crushed stone. Top manufacturing industries include **computer parts & car parts**.
- Equestrian activities bring revenue to the state's economy, especially the **Tennessee Walking Horse**.
- **Low state & local taxes** attract private businesses, but leave public schools chronically underfunded.
- Nashville & Memphis drive **tourism & music**.

Short-Term Outlook: Tennessee

- Years 2019-2023
- Growth 2020-2021
 - Personal income : 4.2%
 - GDP: 5.5%
 - Output: 5.5%
 - Employment: 177 thousand jobs
- Uncertainty

Data Sources

- Baseline (Standard National Control)
 - BLS Forecast Data
- Economic Forecast Update March 2021
 - 2019-2020 historical data from BEA
 - The U.S. Economic Outlook for 2020-2022 from the University of Michigan's Research Seminar in Quantitative Economics (RSQE)
 - An update to the Economics Outlook from CBO
 - Includes \$1.6 trillion stimulus, additional vaccination, and additional consumer spending¹
